

Design: freistil Design-Team

freistil 170

PROFILE

TECHNICAL DESIGN – Classic

- / Wooden inner frame
 - / Spring system: nosag spring
 - / Seat in polyurethane foam “density” 40 kg/m³
 - / Soft foam overlay
 - / Loose back cushion, chambered, filled with rhombus-shaped foam rods (80 %) and crimped, siliconised polyester fibres (20 %)
 - / Standard foot: Tubular steel leg, fine-grain, powder-coated RAL 9005 jet black
- The data of “density” can vary in a range of +/- 10 %.

Classic sitting comfort

Classic sitting comfort is designed for those who like sitting on firm upholstery. The upholstery is relatively firm and therefore provides good support to the body in its sitting position. All in all, the Classic sitting comfort sofa has rather a straight look.

TECHNICAL DESIGN – Lounge

- / Wooden inner frame
 - / Spring system: nosag spring
 - / Seat in polyurethane foam “density” 50 kg/m³
 - / Loose back cushion, chambered, filled with rhombus-shaped foam rods (80 %) and crimped, siliconised polyester fibres (20 %)
 - / Standard foot: Tubular steel leg, fine-grain, powder-coated RAL 9005 jet black
- The data of “density” can vary in a range of +/- 10 %.

Lounge sitting comfort

Lounge sitting comfort gives you a soft sitting experience, thanks to its additional padding. This is the best choice for people who prefer to snuggle down into their sofa.

INFORMATION

- / High and low side sections approx. 12 cm wide. Wide side section approx. 20 cm wide. The armchair only has the side sections with a width of 12 cm.
- / Seat depths optionally 56 cm or 60 cm. Please specify on ordering.
- / Choice of seat height 40, 43 or 46 cm. However seat height 46 cm is only possible with the solid steel leg, tubular steel leg and tapered foot oak (even sloping conical bases). Please specify on ordering.
- / Seat comfort: Lounge or classic.
- / Different seat depths can be connected on the corner. Please specify the seat depth for each model. The corner seat depths are automatically derived from the adjoining models and do not need to be specified. Do not connect different seat depths in a row as this causes the backrest cushions to be misaligned.
- / Repeat and patterned fabrics cannot be processed with this range.
- / There are more dividing seams in leather covers than in fabric covers. Detailed information about this can be found in the Info section.
- / For ergonomic reasons, only the seat area of model ASS-PSZ – not the leg rest – is sprung. So if the leg rest is used as a seat it will feel much firmer.

High-quality, casual upholstery that forms waves/leaves indentations that are typical of the material.

LEG VERSIONS – SHIFTED INWARDS

Tubular steel leg, RAL 9005 Jet black	Steel leg, polished chrome	Steel leg, dusty grey	Steel leg, RAL 9005 Jet black	Tapered foot, oak natural	Tapered foot, oak brown stained	Solid steel leg, RAL 9005 Jet black	Sloping conical base, oak natural
Sloping conical base, oak brown stained	Double round steel leg, RAL 9005 Jet black						

*Not available in seat high 46 cm.
