

Design: Meike Harde

PROFILE

TECHNICAL DESIGN

- Wooden inner frame
 - Spring system: nosag spring
 - Seat in polyurethane foam, sandwich construction, "density" 50 and 40 kg/m³
 - Back in polyurethane foam, "density" 30 kg/m³
- The data of "density" can vary in a range of +/-10%.

INFORMATION

- Choice of seat height 40, 43 or 46 cm. However seat height 46 cm is only possible with the solid steel leg, tubular steel leg and tapered foot oak (even sloping conical bases). Please specify on ordering.
- Each leg on the side of the arm section can either be fixed externally or moved inside. Please specify on ordering.
- There are more dividing seams in leather covers than in fabric covers. Detailed information about this can be found in the Info section.
- Repeat and patterned fabrics cannot be processed with this range.
- Due to its design, this range has a casual upholstery that has a tendency to develop waviness in the surface of the upholstery, and therefore needs more careful maintenance.
- For ergonomic reasons, only the seat area of model ASS-PSZ – not the leg rest – is sprung. So if the leg rest is used as a seat it will feel much firmer.

SOB 131/230 ER (leg shifted inwards), backrest shell in leather
2 x RUK 63 x 32
(Tubular steel leg, RAL 9005 Jet black)
