PROFILE

TECHNICAL DESIGN

- / Wooden inner frame
- / Spring system: nosag spring
- / Seat in polyurethane foam "density" 37 kg/m³
- / Back in polyurethane foam, "density" 30 kg/m³
- / Standard foot: Tubular steel leg, fine-grain, powder-coated RAL 9005 jet black

The data of "density" can vary in a range of +/- 10 %.

ASO/SOB 132

INFORMATION

- / **Choice of seat height 40, 43 or 46 cm. However seat height 46 cm is only possible with the solid steel leg, tubular steel leg and tapered foot oak (even sloping conical bases).**
- / With velours covers, please note the following points:
 - If models are facing different directions (such as corner seating or a group of arm chairs), the pile will lie in different directions. This means it will reflect the light differently and create a different colour impression.
 - Felled seams or piped seams will result in an alley-like appearance in the pile.
 - Shadow effects are created when the fabric is placed with the pile running in a different direction.
 - In the case of seams that run vertically, the fabric colour on one side of the seam may appear lighter than on the other.
- / There are more dividing seams in leather covers than in fabric covers. Detailed information about this can be found in the Info section.
- / Repeat and patterned fabrics cannot be processed with this range.
- / For ergonomic reasons, only the seat area of model ASS-PSZ – not the leg rest – is sprung. So if the leg rest is used as a seat it will feel much firmer.

High-quality, casual upholstery that forms waves/leaves indentations that are typical of the material.

LEG VERSIONS

Tubular steel leg, RAL 9005 Jet black

Steel leg, polished chrome

Steel leg, dusty grey

Steel leg, RAL 9005 Jet black

Tapered foot, oak natural

Tapered foot, oak brown stained

Solid steel leg, RAL 9005 Jet black

Tubular steel frame, polished chrome

Sloping conical base, oak natural

Sloping conical base, oak brown stained

Round wooden base, oak natural

Round wooden base, oak brown stained
