PROFILE TECHNICAL DESIGN

- / Wooden inner frame
 - / Spring system: nosag spring
 - / Seat cushions, chambered, attached with zips, filled with rhombus-shaped foam rods (90 %) and crimped, siliconised polyester fibres (10 %)
 - / Loose back cushion, chambered, filled with rhombus-shaped foam rods (80 %) and crimped, siliconised polyester fibres (10 %)
- The data of "density" can vary in a range of +/- 10 %.

ASO / SOB 134

INFORMATION

- / **Choice of seat height 43, 46 or 49 cm. However seat height 49 cm is only possible with the solid steel leg, tubular steel leg and tapered foot oak (even sloping conical bases). Please specify on ordering.**
- / **The back cushions that are integrated in the models are also available as RUK-RO (back cushions with roll) for an additional charge. The roll prevents the cushions from sliding into the seat.**
- / Corner groups only of ASOs always consist of models with the same orientation: K-ASO left + K-ASO left, and K-ASO right + K-ASO right.
- / With corner groups consisting of 2 or more modular sofas, the cushion gap in the corner can be filled with the backrest cushion RUK 80 x 48.
- / Ticking chamber webs in the pads can show through to the cover (= characteristic feature of high-grade upholstery pad workmanship).
- / Repeat and patterned fabrics cannot be processed with this range.
- / The range is only suitable for velour covers to a limited extent. The fell seams and piping can lead to lines in the pile.
- / With modular systems, velour covers can lead to different pile alignments and therefore to different shine properties.
- / There are more dividing seams in leather covers than in fabric covers. Detailed information about this can be found in the info section.
- / For ergonomic reasons, only the seat area of model ASS-PSZ – not the leg rest – is sprung. So if the leg rest is used as a seat it will feel much firmer.

A high-quality, especially casual upholstery that forms waves/leaves indentations that are typical of the material. This waviness may even occur in new condition.

LEG VERSIONS

Tubular steel leg, RAL 9005 Jet black

Steel leg, polished chrome

Steel leg, dusty grey

Steel leg, RAL 9005 Jet black

Tapered foot, oak natural

Tapered foot, oak brown stained
