

LOUNGING IN LUXURY

The new **freistil 136** sofa: for quality-loving loungers.

With its distinctive seams and the tailored upholstery that outlines the body of the sofa like a **bespoke suit**, **freistil 136** is a **masterpiece of craftsmanship**. Yet at the same time it's a casual sofa *for lounging*: its upholstery with matting offers *plenty of space for sprawling*. Think of it as a wonderful choice for sporty types who change positions on the sofa as often as they change television programmes – that is, when they're not reaching for the snacks on the coffee table. With its **generous seat depth** and the **low back**, **freistil 136** encourages *relaxed sitting*. In fact, your grandmother would be horrified: "Sit up straight!" just isn't possible here. Not on the single sofa, nor on a corner combination.

Designed by Beck Design

"**freistil 136** should look casual and soft while also having form. With all the spaciousness, that means the cover material has to fit as precisely as a bespoke suit so the overall impression doesn't go in the wrong direction."
