WHICH KIND OF SOFA TYPE ARE YOU?

SOFA BENCH Not much room? Are you an upright sort of person but still like your creature comforts? The sofa bench will suit you perfectly.

SOFA CORNER No matter whether the living room is large or small, many of us like to put our feet up. A corner sofa fits in well (almost) everywhere.

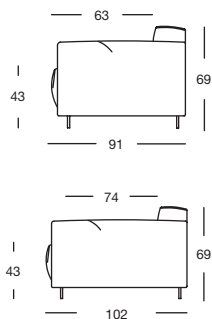

SOFA ISLAND Do you have loads of room and lots of friends? With the spacious corner sofa, your living room will become the new hangout for your friends and family.

„freistil136 is intended to look soft and casual but it has a structure. So, the cover must be generous but as perfectly tailored as a made-to-measure suit – otherwise it would upset the balance.“ Silja and Norbert Beck:

- Soft for sitting and reclining
- Sophisticated design with special detailing at the decorative seams
- Two seating depths
- Right for any size of room: Single sofa, corner sofa or sofa island
- Made in the Black Forest
