freistil ROLF
BENZ

ALMOST AS MANY TURNS AND TWISTS AS YOUR FAVOURITE THRILLER

The new **freistil 137**: where form doesn't follow just one function, but a whole host of them.

It's always nicer when a **sofa meets your needs** instead of expecting you to adapt to it. The **freistil 137** sofa daybed realises all your wishes in a variety of *functions and forms* without taking up much room. It's a **space-saving marvel**. When you want to relax, use it as a daybed with lots of space. Tilt the back when you want to watch television or a film. A wonderfully comfortable bed is waiting when you want to sleep. Last but not least, **freistil 137** becomes a sofa when you want to sit upright. The practical magnet connectors ensure that changing functions is easy and simple. What's next for **freistil 137**? That depends on how your day or evening turns out. **Wait and see!**

Designed by **kaschkasch**

"Generally, aesthetic compromises are made in favour of function, Schneider says. freistil 137, in contrast, always looks great – and is both very casual and intuitive to operate. All three functions are equals in terms of form and aesthetics."

Florian Kallus and Sebastian Schneider

WHAT YOU'LL APPRECIATE

freistil
137

A variety of functions and forms

So much and a good deal more. Whether sitting, meditating, somersaulting, lounging, sleeping or cuddling: Just shift and turn the sofa any way you want.

Small is sometimes really big

The compact corner sofa fits in nearly every space, be it ever so small, but offers great freedom.

Made in Black forest

WHICH KIND OF SOFA TYPE ARE YOU?

When was the last time you visited a friend and slept on the sofa?

Is Netflix the key to happiness?

Are you more productive working from home?

Do you drink coffee or tea from your sofa or a glass of wine?

Exactly the right cover material for you and the way you like to live.
