PROFILE

TECHNICAL DESIGN

- / Wooden inner frame
- / Spring system: nosag spring
- / Seat in polyurethane foam "density" 37 kg/m³
- / Back in polyurethane foam, "density" kg/m³
- / Standard foot: Tubular steel leg, fine-grain, powder-coated RAL 9005 jet black
- / Pouf 68 x 68: Polystyrene EPS-Balls in a polyester cover
- / Fabric piping in grey or anthracite; faux leather piping in browngrey or black.
- / Bo-KI 90 x 90: foam core, 'density' 40 kg/m³ in fleece cover

The data of "density" can vary in a range of +/- 10 %.

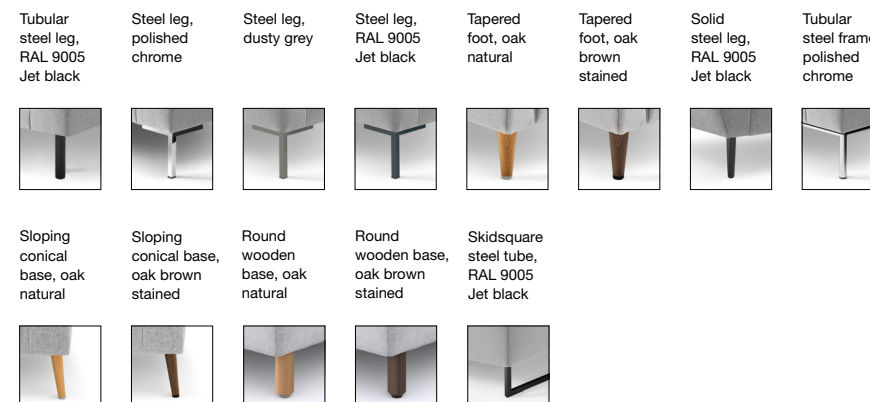

INFORMATION

- / Choice of seat height 40, 43 or 46 cm. However seat height 46 cm is only possible with the solid steel leg, tubular steel leg and tapered foot oak (even sloping conical bases).
- / Normal depth or extra-deep models can be connected together at the corner, but not in a straight lene.
- / Corner groups only of ASOs always consist of models with the same orientation: K-ASO left + K-ASO left, and K-ASO right + K-ASO right.
- / With velours covers, please note the following points:
 - If models are facing different directions (such as corner seating or a group of armchairs), the pile will lie in different directions. This means it will reflect the light differently and create a different colour impression.
 - Felled seams or piped seams will result in an alley-like appearance in the pile.
 - Shadow effects are created when the fabric is placed with the pile running in a different direction.
 - In the case of seams that run vertically, the fabric colour on one side of the seam may appear lighter than on the other.
- / There are more dividing seams in leather covers than in fabric covers. Detailed information about this can be found in the Info section.
- / The legs can be positioned either slightly inwards or directly at the corner in this range. If you would like them positioned slightly inwards, please specify this when placing your order. Only legs that are underneath a side section are positioned slightly inwards. The ASS-PSZ model always has legs that are positioned slightly outwards due to the risk of tipping.
- / B 85 x 85 is also available as an extra-deep version as UE-PB 85 x 97 – at no extra charge.
- / Applies only to pouf 160/68 x 68: Fabric piping in grey or anthracite; faux leather piping in browngrey or black.

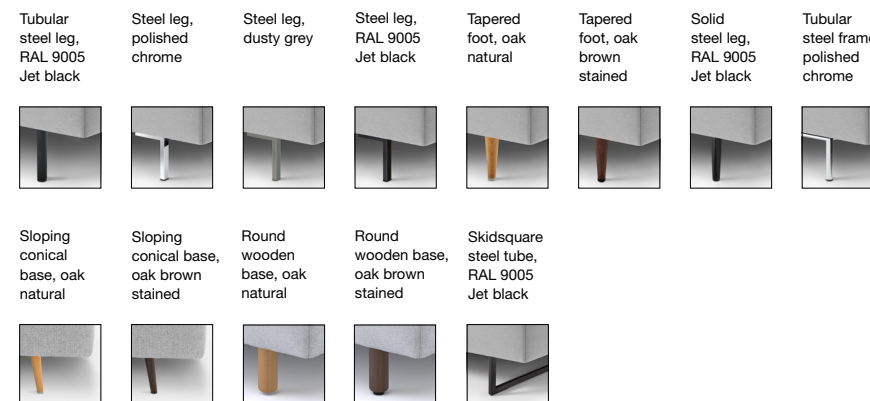

High-quality, casual upholstery that forms waves/leaves indentations that are typical of the material.
